By downloading ANY files from this website or any of its affiliates, you are agreeing to all the above terms. If you do not agree you must not download any files and you should leave this website.

Console ROM images

Due to the quasi legal status of ROM images, it seemed necessary to place a vivid legal disclaimer. Most laws concerning ROMs are somewhat of a gray area, laws vary from country to country on the legality of owning or transmitting ROMs. Generally you are required to be in actual possession of the actual cartridge/PC board in order to legally retain a copy of the ROM. Make sure you are aware of your local laws before downloading anything from this website. Regardless, we will not be held legally responsible. If you do download anything from this website you do so implying consent that you alone hold all due responsibility. You have been warned. Any software available on this website against the wishes of an individual or company will be removed without question.

Viruses

As with most software there is a possibility that some of the ROMs/Images or emulators MAY contain viruses, having said this it is EXTREMELY RARE and so far none of the available downloads from this site have been found to contain viruses. Just to prevent any issues always make sure you have a good virus scanner.

Emulators

All emulators of any kind work in the same way, they are meant to copy the workings of another system as close as possible. This can sometimes pose a risk for your computer and MAY cause damage. As this site only supplies links to the available emulators, the responsibility lies with the authors of the emulator. Emulators usually include their own terms of use in a readme file or on their site, make sure you understand them.
